The Rev. I. W. Royer: GC at Its Best

A leader who kept working away at what mattered most was the late Rev. Isaiah W. Royer, Class of 1900.

He has been described as "a great statesman of God. . . .

"He was a distinguished spiritual leader and preacher of a progressive idealism for which he was criticized severely.

"But he pursued the promotion of his philosophy with humility and an unresentful attitude toward his critical brethren."

His life, which ended on this earth on January 19, 1968, at the end of 94 years, is a tribute to Goshen College, and the preparation it seeks to give to the young persons who come to it for Christian higher education.

"Culture for 'Pioneer' Service"

He was a pioneer on many frontiers. He was among the school's earliest debaters, active in the Ciceronian Club, and later, the "Coming Men of America." He helped reorganize the latter group when it became the Adelphian literary society.

He was elected the first president of the Alumni Association. His name appears among the first as a member of the board of Elkhart Institute and among the first as a representative of the Alumni Association to the Mennonite Board of Education.

He was among the first to teach winter Bible school at Goshen College.

He was one of the first ministers of the College Mennonite Church.

He was among the first to volunteer for full-time missionary service under the Mennonite Church and he served at the Chicago City Mission — the first home mission sponsored by the denomination — early in the twentieth century. It was here that he was ordained to the Christian ministry in 1904.

He was one of the first seminary-trained, full-time, supported pastors in the brotherhood.

He had the courage and spiritual insight to be among the pioneers of the Sunday-school movement.

He became the bridge between one age and another in the denomination and rallied what had been isolated congregations around a strong church-wide program that involved missions and Christian education. He pioneered the church-wide Missionary Day, first observed across the church in the fall of 1917.

Farsighted, Courageous Leader

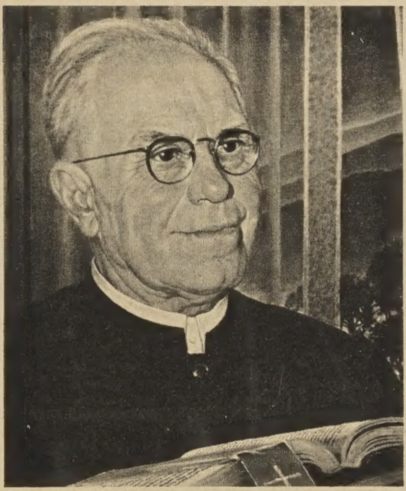
One church leader has said, "He headed his pack. . . . How difficult it was for Bro. Royer, who at times seemed to some persons to be a very intrepid liberal, leading them into who knows what."

He inspired and prepared his daughters to carry on the ideal of Sunday-school materials adapted for each age level and to promote improved facilities for Sunday schools.

Behind all his efforts was a trusting love for the Word of God and the motivation of a dynamic "for to me to live is Christ." A person who knew him and the late Mrs. Royer well has said, "Seldom have these words been translated more clearly into the human situation."

The Yardstick for Christian Higher Education

The ideals by which he lived are among the same as those by which Christian education is measured today.



"I. W. Royer," a portrait in oil by Tom Schenk '36.

* Instruction is not separated from worship. Teaching is in the context of devotion to the Master Teacher.

* Part of the task of teaching is keeping systematic records and making careful plans. Statistics are not to be impersonal. Rather, each learner, not a mere number in a table, is a person for whom the teacher must personalize his work.

* Young persons are called to be witnesses in the spirit of Christ. Their activity and preparation are for building the church, for winning others to Him, and for fulfilling the Great Commission.

It hardly comes as a surprise that the family of the late Rev. Royer wrote,

"Our father's life and interest have been closely and prayerfully interwoven with the work of the church through Goshen College and the Alumni Association ever since his Elkhart Institute days.

"We, his family, have grown up under the shadow of the college literally and figuratively.

"His prayer has always been for its prosperity in ministering Christian higher education to the young people of the church that Christ's kingdom might be extended to the ends of the earth."

The family reports that they do not remember the day when the Bible was not an open book, nor the day when they did not hear their parents' voices in prayer.

A Special Interest in Teachers

Isaiah Royer, and his wife, Christina, took special personal interest in the teachers and college professors of their daughters, including those who prepared their daughter Mary, now professor of education at GC, for the doctor's degree at Ohio State University. The Royers maintained the same interest in their granddaughter's high school teachers.

Mary's major professor at George Peabody College for Teachers told her, "When I am with your parents, I feel religion is valid. For me, protestantism is a mere social club."

And, her doctoral adviser at Ohio State U. was present forthe 50th anniversary observance of Bro. Royer's ordination to the Christian ministry, when it was observed at Orrville Mennonite Church in 1954.

Over and Above All, a Pastor

The preeminent vocation of the late Rev. Royer has been described as that of pastor. One person has said that he fulfilled his every role with a "latitude of love."

1. He was pastor to the community wherever he was. He was known as "the dean" of the Orrville pastors because he was by far the longest in service of any of them and they affectionately looked to him for encouragement and counsel. His diary shows that during his last full year in Orrville (1956), at the age of 83, he completed more than 5000 calls in homes and hospitals. Because of his unselfish and loving concern for others he had a tender ministry to the sick, the dying, and the bereaved. He stood at the bedsides of thousands, and brought them comfort, cheer, and hope, with a prayer, a portion of Scripture, and a friendly smile.

When numerous strokes resulted in total helplessness and blindness, he continued from his bed a ministry of prayer and a testimony of patient cheer and joyous hope to visitors young and old, from across the world and around the block.

2. He was a pastor to the Orrville congregation for 40 years, and under his leadership a full program of Christian education was organized, not only at that church, but across the denomination.

He took special interest in the children and young persons and he knew each of them in his congregation by name. For the youth he planned some of the first young people's conferences in the Midwest.

After every preaching service, he could be found at the church door to greet every person with a warm handshake.

3. He was a pastor to pastors. A former pastor, now a leader of the denomination-wide Mennonite General Conference, has written, "(Bro. Royer) made a very deep impression upon me during some rather critical and formative years of my life. He provided the kind of encouragement which I needed at the right time."

Another pastor has written, "I. W. Royer was an encouragement to me as a young man in the ministry. His name has always been spoken in genuine appreciation."

4. And, he was a pastor to his family. A clue to this relationship is found on Page 2 of **Happy Times with Nursery Children**, written by Miss Katherine Royer and on which Prof. Mary Royer and Elizabeth Royer Neff were consultants. It reads, "Lovingly dedicated to my parents Isaiah and Christina Royer who are the kind of Christian teachers I wish for little children everywhere."

A few words can hardly describe the warm relationship between Papa Royer and his wife and three daughters, his granddaughter, and son-in-law in whose home the elder Royers were lovingly cared for during the last 10 years of their lives.

About those years Elizabeth Royer Neff has written, "What a benediction our parents' presence and prayers have been these years in our California home, enfolding us, our neighbors, our friends, and the main street merchants in the warmth of their love and the love of Jesus."

A Last Request

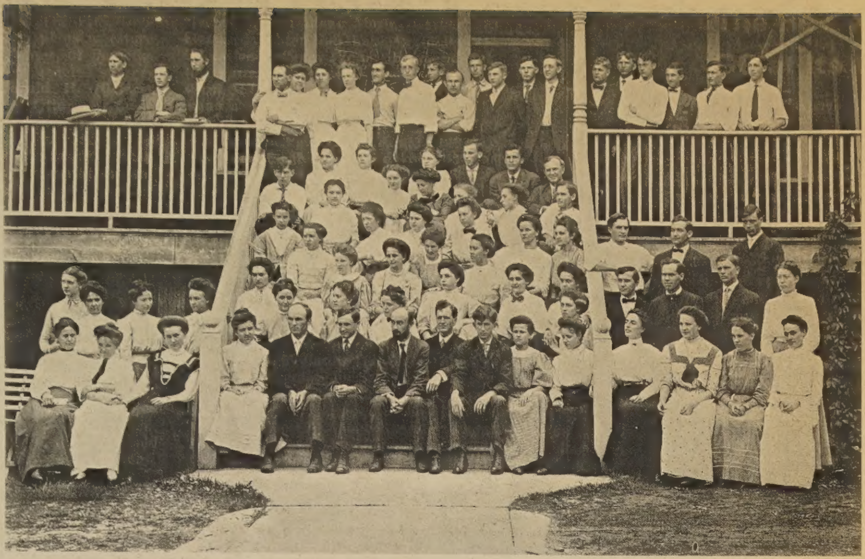
One of the last requests of Bro. Royer was that his family make a gift of $1,000 to Goshen College.

The Rev. I. W. Royer: GC at Its Best

(Cont'd from page 1)

Such a request could be meaningful to a family who lived closely with the person who earlier said, "It has been a joy to meet hundreds and thousands of Christian workers throughout the brotherhood and to see many children and young people grow up to be active in Christian service."

To those who knew him well, the next statement hardly needs to be made. But to those of us, including the editor, who can only look back at his life and contributions, he is "Culture for Service" in person.



Bro. I. W. Royer, instructor in Bible at Goshen College 1905-09, is third from the right in the second row. He is among the 79 persons who assembled in front of East Hall (then known affectionately as "Saints' Rest"; now known as North Hall) for this picture, believed to have been taken either in the year of 1907 or 1908. Others on the picture who can be identified are Chris Blosser, S. F. Gingerich, N. E. Byers, Frank Ebersole, Claude Brunk, Minnie Yoder, Margaret Richert, Margaret Detweiler, Amos Ebersole, Charles Shank, Lloyd Blauch, Amos Geigley, Bert Smith, and S. E. Weaver.

News of Alumni Clubs and Reunions

Dr. Atlee Beechy Speaks At Valparaiso

Last November 9 some 20 Northwestern Indiana alumni heard Dr. Atlee Beechy, the first coordinator for Vietnam Christian Service and now director of the Office of Experimentation in Christian Higher Education, a special program at GC funded by Lilly Endowment, Inc.

Two students were also on hand to report on the new Study-Service opportunities and their experiences in Haiti and Barbados last summer.

Special recognition for providing refreshments, and for the silver tea and crystal punch service goes to the planning committee in charge of Regional Club President Robert Isbell '52 and Vice-president Ron Gibson '58.

The evening meeting was in Westminster Hall of Valparaiso's Presbyterian Church.

President Mininger Speaks To Illinois Group

Sinorak's, of Bloomington, was the setting of a special President's Forum for more than 100 alumni and parents of students last February 3.

Pres. Mininger gave the group late information and facts on the program of the college.

In charge of arrangements was Mr. Howard Albrecht '40, of Morton, Ill.

Special Combination Meeting for Alumni Of Cleveland Area

A special meeting involving about 40 persons — Cleveland area alumni as well as Goshen College counselors and pastors of local Mennonite churches — was held at Independence, Ohio, on March 4.

Dale Stoll '60 was in charge of arranging the dinner meeting, held at the Brown Derby Restaurant. The emphasis of the evening was "The Role of GC in the Future."

Because the topic was of interest to both alumni and GC counselors and pastors, those who arranged the meeting felt the discussion would be strengthened if persons from both groups were on hand to talk about GC's past as well as what it should be in the future.

Second Special Combination Meeting Held in Western Pennsylvania

Arden L. Yoder '52 was in charge of arrangements at a March 5 meeting that included more than 40 alumni of Western Pennsylvania and Goshen College counselors and pastors of area Mennonite churches.

Held at Bittner's Restaurant, just off the Turnpike at Somerset interchange, the theme of the program was similar to the one held the night before in Cleveland.

Discussion from the floor after statements by members of a panel, who were selected before the meeting, centered on how GC might better serve alumni and the Mennonite Church in the last third of the 20th century. Ray M. Sala, GC's director of church relations, was moderator for the evening.

Around the Campus

Robert W. Guth (left), son of Mr. and Mrs. Wayne Guth, of Eureka, Ill., who has won fifth prize and a $6000 scholarship in Westinghouse's 27th annual nationwide Science Talent Search, is planning to enroll at GC in September. . . .**The work of two GC students** won prizes at the 7th Annual Indiana University Art Salon this spring. Stanley Kaufman won first prize for his woodcut print, "The Forest," and Mrs. Gretchen Kingsley received honorable mention for "Juggernaut," an oil. Of the 90 works chosen for exhibition, 12 were by GC students. . . . **The tremendous acceptance** of the Study-Service Trimester abroad next year by students now on campus makes it possible for GC to accommodate more students on campus next year. With several units abroad in operation around the year, and with the adoption of the new year-round trimester calendar, college officials say it's not too late to be admitted: The new Goshen Plan makes it possible to utilize better the educational plant, and up to 11 months a year, too. . . .**To make the spring trimester** (mid-April through end of July, 1969) attractive, the Board of Overseers has voted a special fee rate. A student who lives in a residence hall can save $170 if he goes to four 3 1/2-week terms during the spring trimester, compared to the cost of either of the 14-week fall or winter trimesters. . . .**June 15-22, 1968**, GC will be host at two special events — College Preview for high school juniors, and Summer Music Week, for sophomores, juniors or seniors. Your card to the Admissions Office will bring more information.

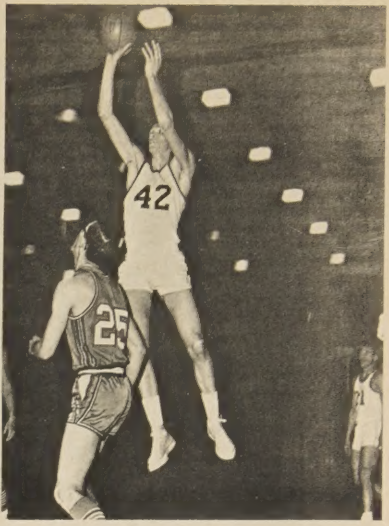
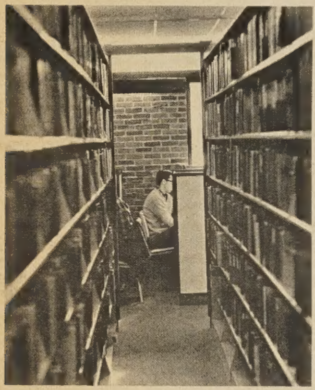
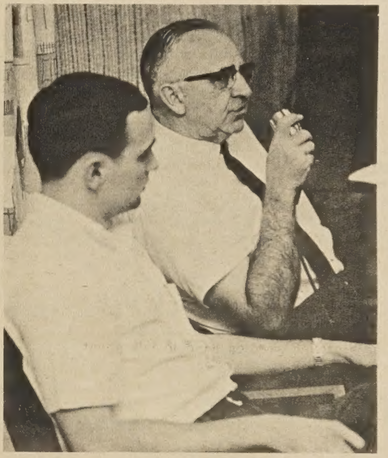
Prof. Gingerich will continue in his present position as director of men's physical education and continue teaching and coaching of the tennis team. The **Goshen News** said, **"The pioneer of all sports at GC, Dr. Gingerich has done a remarkable job in initiating an intercollegiate athletic program. He has built the Maple Leafs to one of the state's best among small colleges."** Litwiller was a four-year member of Gingerich's varsity basketball teams when he was a student '58-'62, and averaged 15 points a game during his last three years for the Leafs.



KEITH SPRINGER, "42," the Maple Leafs' standout forward was named to the All-Indiana Small College Basketball Team this spring by NAIA.



THE GLEAMING Harold and Wilma Good Library, which opened in November, is artistic inside and out and has excellent study atmosphere. Comment students: "I just love it". . ."So quiet for studying". . . "Really comfortable chairs". . ."It is so elegant it almost removes the stigma of a library being a place to study". . ."With a carrel to myself, I can really concentrate."



FOUR INFORMAL Presidential Forums to discuss students' concerns have been set up by Community Government President Dan Shaffer (left) and Pres. Mininger. They have been described as "among the most important campus events this year."

SCA MEMBER Kendra Crist is part of that group's effort in the East Goshen-Lighthouse area, where clubs and Sunday-school services are held weekly. Among other SCA activities are weekend VS units at a Chicago church, tutoring, and recreation supervision at Bashor Children's Home.

MISS JOAN GIBSON, a senior from St. Louis, Mo., was elected by the 90 members of Indiana's North District of the Nursing Student Association as their "Nursing Student of the Year." The judges in the contest, held in South Bend late in January, were a registered nurse, physician, and community leader. The entrants were evaluated on the basis of an interview with the judges, an essay on "My Personal Values in Nursing," and a written report from one of their instructors. This year was the first that such a contest has been held. Miss Gibson looks forward to being married in June and eventually to missionary service in South America.

ALLEN GRABER (with coffee service) was among the more than 30 who attended the Fort Wayne Alumni Club meeting on February 9. Among those speaking were Stan Beachy, a junior, "Summer Experiment in Haiti"; and John M. Zook, admissions office, "The Goshen Plan."

A Tale from Tennessee
By a Doctor's Wife

From Memphis, Tenn., **Carol (Teuscher) Beachey** writes (for her and her Husband, **Ed, M.D.**), "The ten years since we left GC have been so full. Ed was graduated from Northwestern U. Medical School in '62; while he was going to school, interning, and completing a residency in Chicago, I worked at a succession of jobs, in the general following order: editorial research assistant, **Together** magazine; assistant director of public relations for Chicago area of the Methodist Church (Northern Illinois); national executive secretary, Women's Auxiliary to Student American Medical Association (WA-SAMA for short), only paid officer of organization, was central administrative manager, among other things (stood that one year); during this time served as managing editor of WA-SAMA's national news organ, **Chatterbox**. Finally, in 1963, I worked a year as an assistant teacher at the Harris School, in Chicago. In '64 we moved to Bethesda, Md., where Ed had been appointed a research associate at NIH. My 'careers' behind me, I was able to enjoy my home and family and pursue my hobbies. We attended Bethesda Presbyterian Church, where I sang in the choir and served as soprano soloist. In '66 we moved again, this time to Memphis, Tenn., where Ed is a postdoctoral fellow of the Arthritis Foundation at the U. of Tennessee Medical School. He has been doing extensive research in the field of streptococcal diseases and immunology and recently presented a paper at the annual meeting of the American Heart Association in San Francisco. He travels a good deal to scientific meetings and is involved in several projects. My life now pretty much revolves around the exciting things he is doing, and Anne, 8, and Jennifer, 5, whose school activities leave me in the dust. I do sewing, reading, painting, and a little writing and am busy now trying to furnish on pennies a somewhat rambling colonial house we recently bought in downtown Memphis. I sing with the Idlewild Presbyterian Church choir, and we take as much advantage as possible of the cultural activities this city offers. Memphis combines a small town atmosphere with big city advantages and we plan to stay a while. It is not at all what we expected of the South. But, that's another story."

From GC we left for Ailsa Craig, Ont., where I was assistant pastor for about three years. During this same period I also worked at the Provident Bookstore, at London, Ont. It was here that we prayed that the Lord would open some foreign work for us. Our present work in Brazil is where we were called and came in September, '61. One year was spent in studying Portuguese. With a working knowledge of the language I was asked to take over the direction of a Christian bookstore. The operation has grown; we now have a total of four stores and two store managers. The Mennonite Church can be most ecumenical in service-type projects, and we have experienced some of this in bookstore work. We have dedicated our bookstores to serve all denominations. Along with this we carry good cultural books which brings to us many nonevangelical persons. Since our store location is near the Catholic University we also have teachers and students coming to our store. The store is open six days a week and it is a full-time responsibility. As to our church activities we have up until recently been attending the Valinhos church, which was founded 11 years ago. More recently we have been starting a visitation program in a part of Campinas where there is no evangelical church. I am a research assistant to the pediatrician who does physiological and biochemical analyses on baby rabbits. His field is hypoxia of the newborn. In '63 I joined the Rosicrucian Order and have been active in the Dayton chapter. I have also become interested in occult sciences and in metaphysics and how these blend with psychology and all faiths and religions. I have also become interested in the Waldorf School movement; it was founded by a man who had a highly developed intuition and observed closely how children learn, what they need at certain ages in the way of art, science, etc. His approach to reading is of special interest to me because it seems to have a foundation that most teacher education approaches do not. He teaches through rhythm, music, imagination, and visual devices so that the child lives the particular letter and never forgets it. . . ."

Teacher Shares Human Experiences From France

Mrs. Ruth E. Strang, of Osceola, Ind., writes, "Incredibly enough ten years have flown by. By the grace of God they have been good years for me. I spent the first few teaching at Elsie Rogers School, Mishawaka, Ind. I received the M.A. from the U. of Notre Dame in '59. Then I began teaching French in the elementary grades in South Bend, teaching in three schools, and making a packhorse of myself carrying a suitcase of supplies and audio-visual aids and a tape recorder. I was fortunate to be chosen to study at a French Institute, through the NDEA foreign language program, at Akron U. Last summer I received a teacher's grant through I.L.P. from Indiana U. to study at the Sorbonne in Paris. This time, and before, too, when I studied there in '63, I experienced the joy of getting to know persons like you and me: persons with living habits a bit different from us, but persons with needs and loves and questions just like we have. I found many splendid Christians in France, many of whom apologized for Mr. DeGaulle's uncalled for behavior in Canada last summer. I lived with a French family, and I learned more from this opportunity than I actually did in school — things one never sees in public or reads about in books: the closeness of the family unit, and the gradual opening of this unit to include me; the kitchen door remained closed for the first few days — no stranger was to see inside this area. Then they left the door ajar so that I could visit with the mother while she prepared the meal; soon she invited me into the kitchen to see how she fixed this or that special dish — the food was all so very good, and I'd constantly ask how did she make it; then finally I really felt one of them when they shared their treasured album, their special family celebrations, and invited me to attend their church and visit their friends; the love shown one to another; a good-night kiss for each member of the family — and on both cheeks, too. A friendly once-down, firmly-squeezed handshake for everyone who was in the room — this was a gesture of sincere welcome. The great emphasis was placed on education. Nothing seemed to be so important as the children's opportunity to continue their education. I consider it a real privilege to teach French to boys and girls. This in a small way can help toward better communication and understanding and greater peace." Mrs. Strang attends the Pleasant Valley United Church of Christ, of Osceola; she has taught a youth Sunday-school class there for 20 years.

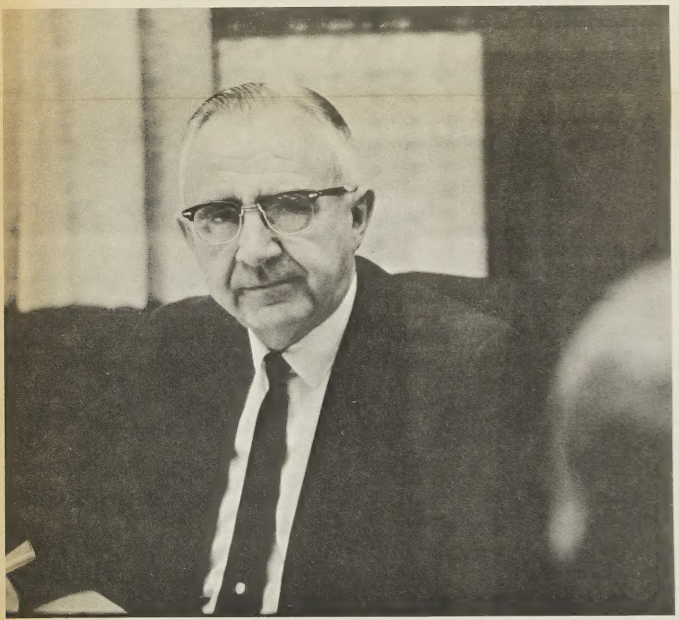
Toward an Understanding of the Christian College

Excerpts from an address by
Paul E. Mininger,
President of Goshen College



Dr. Paul Mininger, who has been president of Goshen College since 1954 and on its faculty since 1937, was again elected to a three-year term as president at the Mennonite Board of Education meeting late last month.

The tradition of Christian liberal arts colleges, including Goshen College, has always stressed that learning is a social art, practiced where students meet scholars.

At our best, we have been most faithful to our calling to that tradition and we have been most faithful to the Gospel which has inspired and directed us when we have placed an important emphasis on the idea of "community."

It goes almost without saying that the heart of any community is when its members share an experience that is meaningful to each of them. And, as a result, the members are bound closely together.

Now, at a college the members of the community are dedicated to the experience of learning. The learners and the teachers take part actively in the experience. You might say they are engaged seriously in the business of inquiry, of thinking, of growing.

It is important that the members be united to achieve the common purpose of learning. And, it is important that they accept disciplines to achieve that purpose. I like to call these disciplines intellectual virtues — scholarly honesty, scrupulous accuracy, respect for facts, perseverance, and hard work are among them.

But above and beyond the traditional aim of learning that has characterized the liberal arts, we at Goshen College are bound together by a common faith. You might say we are motivated to search out the meaning of the Christian faith. We are ready for new and fresh understandings of the claims of Christ. We are ready to pursue further our interpretations of those claims and their meanings for our lives today.

Change, reorganization of our thinking, and revamping of our practices may be called for in the face of the ultimate meaning of life. More importantly, our understandings may mean a new discipline for each of us — to be obedient to the light that we already have. Otherwise, how can there be progress from the insight that the Spirit has already revealed to us?

The kind of combined Christian and academic community we seek to build permits differences and unique qualities each of us brings to it. We shall move toward that special community more readily as each of us assumes more responsibility for the learning and Christian growth of those that goes on there.

What It Means to Teach In a Christian College

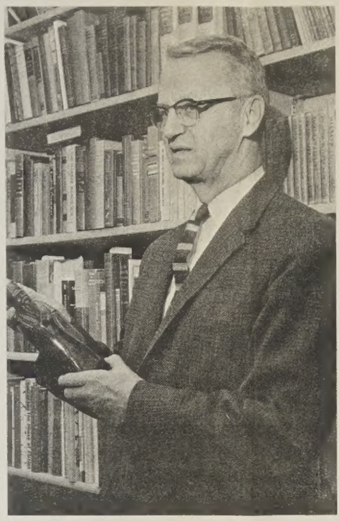
By S. A. Yoder, Professor of English

The first obvious requisite for teaching in a Christian college is dedication. The dedication of which I write consists not so much of personal sacrifice as it does of a stubborn devotion to college and professional standards which refuses to be deterred by concerns of material compensation or aspirations of status. We who teach in smaller colleges dare not ignore the professional recognition, the scholarly publication, nor even the big salaries which competence in one's field may very well bring about; yet when these become the dominant motivations in one's professional life, one may well be losing one of the essentials for successful teaching in a Christian college.

One's dedication in a Christian college must be strong enough that it enables him to rise above petty annoyances. It enables him to submerge the stresses and strains which are an ingredient in any human social structure — within the church itself. Out of the differing points of view and clashes of opinion amongst student-faculty-administration interchange there must emerge consensus and progressive policies. One's dedication must keep him anchored, but there must also be an intelligent flexibility in working with one's peers. How does one, for example, deal redemptively with the phenomenal increase in student demands to be heard in matters of policy?

Also, to teach in a Christian college one must be Christian. The question of how a Christian handling of one's subject matter differs from that of a non-Christian has been much discussed. There are many complex and sophisticated answers. Perhaps none of them are entirely satisfactory. I have just about concluded that the best answer lies in the realm of the intangibles. **Being** is more fundamental than is doing or talking. We all live in glass houses. When a professor is competent in his field and articulate in communication and, along with these attributes, has found Christian faith, it will be communicated in a thousand and one ways, often unconsciously. Perhaps it is in the humility and the integrity with which he gives his lectures, or in the kindness and sincerity with which he fields classroom questions, or in the patience with which he conducts student interviews. The big problem is to be sure one has vital faith in God, and not worry too much about whether or not it is communicated; for if one has it, it will be communicated! The Christian professor need not be afraid to investigate anything, but he must do it with honesty, candor, and humility. He must avoid bigotry, superciliousness, and conceit.

The excitement of being a part of an academic environment, motivated by investigative curiosity and Christian faith, can be one of the most rewarding experiences in the world.



PROF. S. A. YODER has been on the faculty of Goshen College for 27 years. Next year he and Mrs. Yoder will be the leaders of a Study-Service Abroad group in Jamaica.

What a Student Expects from A Christian College

By Carol Beechy, sophomore from Wooster, Ohio

I expect Goshen College to be a place where learning is exciting, where concern for the individual exists, and where living in the full sense is practiced.

As a student, I expect Goshen College to be, first, a liberal arts college. As such, it will attempt to help students in their search for meaningful existence by requiring certain courses and by having a strong philosophy and religion department. Since truth is personal and subjective, any presentation of truth will necessarily be from some perspective, openly acknowledged or not. At Goshen College, truth will be presented from a Christian perspective.

The college administration must recognize that what it has erected is only a structure. God did not breathe life into it, and therefore the institution is not sacred. The administration must be flexible, willing to change and adapt. It should not fear dissent, recognizing that when questioning and dissent have ceased, people have stopped thinking.

The administration will see students as persons in their own right — not as shadowy half-beings waiting for some magic to make them mature. This implies that Goshen College will gradually abandon the concept of **in loco parentis**, for, as Richard Friesen pointed out in a recent issue of **Arena**, "paternalism is self-fulfilling — it keeps the immature immature." It also implies that the college will follow not the Puritan pattern of required participation in what are usually meaningless religious exercises, but will, rather, allow religious activities to grow out of the individual's commitment.

The faculty also has responsibilities. Professors must be good teachers — academically competent, capable of communicating their knowledge to students, relevant. They should present their subjects from a Christian perspective and at the same time maintain the integrity of the material they are presenting. As followers of Christ, they will see students as individuals for whom they care.

As students, we, too, have responsibilities. Too often we have expected to receive our education on a silver platter, devoid of any troubling or upsetting personal involvement on our part. Perhaps facts can be picked up without any such involvement, but no real learning can take place.

As a student I must let myself open. I must be willing to go beyond the minimum that is taught or expected of me. I must question critically and intelligently what I am being taught. I must learn to take the initiative in establishing personal relationships with profs, other students, and administration.

Furthermore, I have a responsibility to help the faculty and administration structure the academic program. This means communicating to them my ideas for improving the system, whether they be more independent study, more seminars, a pass-fail system, or individual courses that I'd like to see instituted.

I expect Goshen College to be a community of persons in search of truth — persons who care enough to listen, to talk, to respond, to dissent. I expect it to be a place where I can continue learning to see, to hear, to feel, to think, and to believe.

CAROL BEECHY was layout editor of the 1968 Maple Leaf and will return next year as its editor-in-chief. Her article is a summary of a chapel address at GC.

A Special Letter to My Fellow Alumni . . .

The house was dark but the door was open.

So, the close friend and neighbor entered after getting no answer to his knock.

The response from the darkened room was, "Oh, it's you. I thought it was the Alumni Fund solicitor from GC and I didn't want him to think I was at home."

Funny?

Possibly. It all depends on your point of view. Financing Christian higher education is serious business.

NOTE

To date, 11½ per cent of alumni have contributed 58 per cent of the $133,000 goal for '68.

But back to the darkened house . . . .

This year no one will call at your house. And, no one will call you by telephone.

You are on your own.

Your response to the '68 Alumni Fund depends on you . . . and you alone. If you do not respond, how long do you think GC can survive the indifference of its alumni?

Thanking you in advance,

John H Liechty

IN MEMORY

Viola Horch Falk
Feb. 9, 1935 - April 26, 1968

Mrs. David V. Falk, the former Viola Horch, of Winnipeg, Man., was killed instantly in a near head-on collision west of Elkhart, Ind., late in the evening, April 26.

Thirty-three years old, the late Mrs. Falk had before her a promising career in concert singing and in teaching. In her short career, she had sung solo and in duo with her husband at a number of colleges and universities in the United States, Canada, and Europe, and had been featured over the dominion-wide Canadian Broadcasting Corporation on a number of occasions. She had taught voice at Goshen College for two years.

Her husband, director of GC's Chamber Choir and recently promoted to associate professor of music, sustained considerable injuries, cuts, and bruises, including fractures of the jaw and right leg. As the Bulletin went to press on April 30, the condition of Mr. Falk was still listed as poor at Elkhart General Hospital.

Although the late Mrs. Falk was known by many in the role of a concert artist, she considered her first role as that of a wife and mother. Among the survivors are the widower and one daughter and three sons. None of the children was involved in the accident.

Also surviving are her parents and the maternal grandparents. She was the only child of Mr. and Mrs. Ben Horch.

She was a member of the North Kildonan Mennonite Brethren Church, of Winnipeg, and was baptized upon confession of faith and accepted into church membership at the age of 12. While in Winnipeg she introduced children's choirs as a part of the church program. In Goshen she attended the College Mennonite Church.

Memorial services were held in the College Church-Chapel on April 30. Interment was at Elkhart Prairie Cemetery.

Twenty Groups Discuss GC's Roles

Nearly all the reports are in from this spring's more than 20 meetings of GC Counselors and pastors, and it is clear that the church continues to be deeply interested in every aspect of Christian higher education.

Among the many discussed topics by the more than 550 persons who took part in the meetings were the role of GC in the life of the church in the past and the preparation of the leaders of tomorrow. GC's financial well-being and how GC can best challenge students to be obedient servants of Christ were also regular topics of discussion.

The same persons noted the increasing availability of state-supported schools and community colleges, the lack of the Christian perspective in their courses, and the widespread stories about the low social standards accepted by many of today's non-Christian youth.

One of the high lights that recurred meeting after meeting was the spontaneous testimony by those who have been privileged to attend GC.

As one young graduate put it, "I am a product of all that was done at Goshen College. One cannot measure the values and appreciation for the school until after he's been there. I don't blame the school for my failures, but I certainly do give it a lot of credit for all my successes. I want to assure it of my support through prayer and in every way."

Goshen College dedicated its new $1,290,000 Harold and Wilma Good Library on Sunday, September 22, 1968.

Activities of the day included a dedication service in the Church-Chapel nearby, a reception in honor of the donors, and open house of the library. More than 1000 persons, not counting students, were on hand.

The library was made possible by a $1 million gift by Mr. and Mrs. Good, both graduates of the College of the 1920's. The gifts of many others made possible the successful completion of the project. Substantial amounts were given by the Mennonite Church and by alumni, as well as by Lilly Endowment, Inc., the Kresge Foundation, and Northern Indiana business and industry and professional persons.

This special picture edition of the Goshen College Bulletin is designed for the many friends and supporters of the College who could not be present for the day's activities, as well as a keepsake for those who could attend. Additional copies are free and are available by writing to the College.

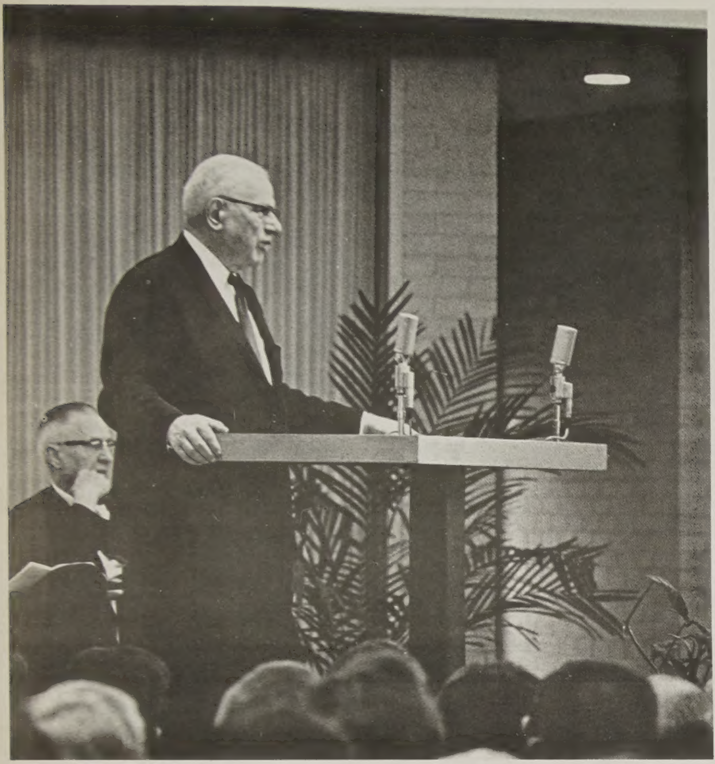
Goods Greet Visitors At Reception

Mr. and Mrs. Harold Good, of East Lansing, received friends and visitors at the reception immediately after the dedication service.

Left to right, in foreground: Mr. Good, Mrs. Good, Mrs. Bontrager, and Dr. Warren E. Bontrager, of Mio, Mich. In the background is Mrs. Mininger, wife of Goshen College President Paul Mininger.

From the receiving line, guests entered the Church-Chapel Fellowship Room where coffee, punch, and cookies were served. To accommodate the crowd, Mr. and Mrs. Good received guests for more than two hours.

Columbia University President Urges 'Disciplined Life' in Sunday Address



New Library Is Praised By Dr. Cordier

"A disciplined life is an efficient life and an emancipated life," Dr. Andrew W. Cordier said in his dedication address, "Education in a Revolutionary World," September 22.

Dr. Cordier, who was appointed acting president of Columbia University in August, and is also dean of the Graduate School of International Affairs there, said the discipline that is so absent today has led to the permissiveness that prevails in society.

"This permissiveness," he said, "leads to license, to a lack of respect for any kind of authority, and leads eventually to a life of failure and defeat."

Throughout his address Dr. Cordier often referred to his "last 30 days," the term of his presiding over the beleaguered eastern university. He told the audience that "in this uprooted society there is a need for sympathy with young persons whose lives are so different today than were those of a generation ago."

He attributed this to the marked accent on change in Western civilization which is caught up in a technological age which, he said, "has simply transformed our lives."

Dr. Cordier also emphasized that he believes there is a great need for reconciliation everywhere in the country, not just on college campuses. He spoke regretfully about "the tendency of persons to become set in their attitudes — unwilling to compromise."

In his introduction, Dr. Cordier complimented Goshen College on its new library and the new Goshen Plan. In commending the school on its educational program, he said that by making it possible for all students to engage in a trimester of study and service abroad, "you have put your finger upon one of the important things today — contact with other cultures and other peoples — a recognition of the human kinship that exists between us all."

Dr. Cordier is a graduate of Manchester College and has been associated with affairs of the United Nations since its founding in 1946. Among his many activities he served as special representative of the U.N. secretary-general in Korea, in the Congo, and in Palestine.

ON THE PLATFORM for the dedication service were (left to right) Miss Mary K. Oyer, chairman of GC music department, song leader; Dwight V. Yoder, chairman of Board of Overseers, who led responsive reading of Proverbs 3:13-26; Mr. and Mrs. Good, who were introduced by President Mininger and had a special part in the litany of dedication; Pres. Mininger, who presided; Dr. Cordier; Dr. Carl Kreider, dean of the College, who led the litany; Dr. Paul M. Lederach, president of Mennonite Board of Education, who offered the prayer of dedication; and Dr. Ernest E. Miller, president emeritus, who offered the invocation.

Pres. Mininger Honors Families of Donors At Private Dinner on Eve of Dedication

One of the high lights for the small dinner party hosted by President and Mrs. Mininger for Mr. and Mrs. Harold C. Good and close friends and relatives was the presentation of a citation.

Served in the privacy of the Church-Chapel Fellowship Room, the dinner was a chance for Goshen College's top administrator and his wife to get acquainted with about 40 persons who have been close to Mr. and Mrs. Good over the years.

Briefly and informally after dinner, President Mininger read and presented a citation to Mr. and Mrs. Good thanking them again for the library.

To understand the background of such a ceremony, one must have an idea of the emotion that comes about when a gift such as a library is made. Pres. Mininger recalled his first visit at the East Lansing home of Mr. and Mrs. Good three years ago when they shared with him their aspirations and hopes for their alma mater. He recalls that it was not altogether a solemn occasion.

Since then, over the months and years, during which the new library was being designed, built, and furnished, Pres. and Mrs. Mininger, and a number of other college officials have become better acquainted with Mr. and Mrs. Good.

After picking from these experiences and sharing them with the guests, Pres. Mininger read the citation, which was passed by action of the faculty and is excerpted:

"Harold and Wilma Good, we cite you for an act of faith and joy. . . . We thank you for a library. The beautiful and commodious building which now stands at the center of our campus will always be a monument to your generosity. . . . It (this citation) is . . . a tribute to the spirit in which your gift has been given. Yours has been the gift not of a philanthropist but a friend; not of a paternalistic benefactor but a comrade in arms. . . . It has encouraged us in our work and strengthened our determination to preserve and enhance the great tradition of free, Christian higher education. For this we heartily commend and thank you."

Other events on the eve of dedication were tours through the library for the guests and a faculty recital at 8:15, attended by more than 400 in the east half of the Union Auditorium.

SUNDAY DINNER before the dedication service was hosted by Dean and Mrs. Kreider at their home. Left to right, seated: Dr. Cordier; Mrs. Mininger; Dr. O. B. Gerig, cousin of Mrs. Good, a 1917 graduate of GC and a long-time friend of Dr. Cordier, the Miningers and the Kreiders; Mrs. Good, and Dean Kreider; (standing) Mrs. Kreider, Mrs. Gerig, President Mininger, and Mr. Good.

Sunday a Good Day at Goshen

After a morning of showers and overcast skies, the weather on Sunday, September 22, turned sunny and balmy for the dedication service and the events afterward.

More than 1000 persons, not counting students, were on hand for the dedication service, and greeted Mr. and Mrs. Good afterward.

Beside three daily newspapers, a South Bend television station covered the events of the day.

One of the high lights of the dedication service was the litany, which was written by Dr. C. Norman Kraus, chairman of GC's division of Bible, religion and philosophy.

Excerpts from it are:

"Leader: A library is the symbol and crown of cultural achievement. We have designed and built it beautiful, strong, commodious to house the written record of our cultural accomplishments. In it we store for use the treasures of our language and our art. To it we bring our tomes of ancient wisdom, our microfilms, and tapes, and paperbacks of modern knowledge. It is a crown of our achievement. But lest it should become a monument of pride, a tower to heaven, a Promethean defiance of Thy plan

"The People: We give it unto Thee, our God, and dedicate ourselves again to seek Thy will on earth.

. . .

"Leader: Our library is a gift from God. It comes to us through two alumni who hold a trust from Him and would as faithful servants invest it for **His** profit and approval. Theirs is an act of faith in God and Goshen College, an act of gratitude to all whose dedicated sacrifice has brought us to this moment, an act of hope and confidence in those who work today in carrels, classrooms, offices, and labs to follow with integrity the Christian scholar's great tradition. They have endowed us with a blessing and a trust.

"Faculty and Students: So we, faculty and students, express our heartfelt thanks and promise with delight to use, enjoy, and share this library for our own enrichment and service of our fellows.

"Mr. and Mrs. Good: And we in turn do give it freely and with joy, and join in dedicating it a center for the advance of wisdom and for the encouragement to generous service.

. . .

"The People: And thus we dedicate this building and ourselves to find love's use of knowledge, power, and wealth; to use our talents and our skills in bringing peace and justice to our earth; and to spread the great good news that truth and destiny are found in Christ by all who willingly obey His sovereign will."

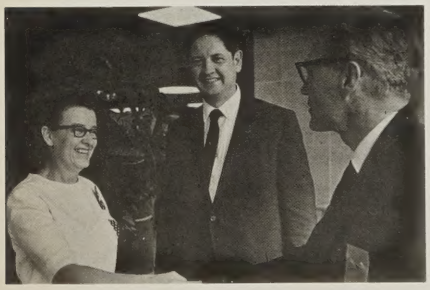
Cordier, dedication speaker; and Mr. Good before the time of the service. After the rain clouds moved, the day was a perfect early fall day for the occasion.

AFTER THE SERVICE Dr. O. B. Gerig (left), of Venice, Fla., and Dr. S.T. Miller (center), of Elkhart, Ind., were among the many who greeted Dr. Cordier at the pulpit of the Church-Chapel sanctuary. Dr. Cordier spoke on "Education in a Revolutionary World."



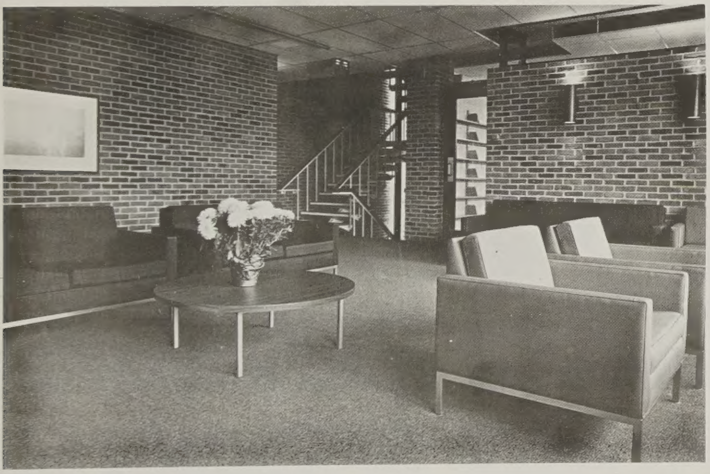
ON HAND TO GREET visitors before the service and at the reception were Dr. and Mrs. Paul M. Lederach, of Scottdale, Pa. Mr. Lederach is president of the Mennonite Board of Education. Mrs. Lederach shakes hands with Goshen College Professor of Speech Roy Umble.

IN THE RECEIVING LINE were Mr. and Mrs. Dwight V. Yoder, (at left) of Akron, Pa. Mr. Yoder, who has been a member of Goshen College's Board of Overseers since 1960, is now chairman of the Board and a member of its budget and finance committee.

THE REV. AND MRS. A. C. Good, of Sterling, Ill., visit with Mrs. A. E. Kreider, of Goshen, Ind., before the service. Rev. Mr. Good is an uncle of Harold C. Good. Before and after the service there was ample time to visit and renew friendships.

THE LOCATION of the major part of the library holdings and individual study carrels is on the second floor. The design of "open stacks" permits users to disperse among the books and bound periodicals. Except for a small number of special and rare volumes, every book is available to every student.

Library Spacious, Attractive, Useful



THE LOUNGE (at left) is on second floor and the check-out area (at right) is inside the main entrance and straight ahead. The lounge, set aside for light reading and browsing in a comfortable seating arrangement, faces the west. Its broad glass front (not shown) permits a view of well over a third of the campus, as well as a view of the Harold and Thelma Schrock Plaza. The check-out area serves as a circulation desk and a center for books placed on special reserve for extra or required reading for courses. A small room to the east houses microfilm, including that which covers a 74-year span of the New York Times, and microcards and reading devices. The offices of the librarian and assistant librarian are directly off the lobby, south of the desk. Many pieces of art are located in the lobby and throughout the building. Other features of the building include three seminar rooms for group study and research and several rooms for one person for intensive study. Every effort was exerted to make the library useful and attractive.

OPEN, CARPETED STAIRWELLS (left) are an architectural feature of the new library. This shot on the first floor, shows the card catalog in the background. The art gallery (right), on the ground floor, accommodates student and faculty work as well as traveling exhibits. On display (shown here) at time of dedication were recent works of GC's art faculty, Profs. Abner Hershberger, Ezra Hershberger, Alta Hertzler, Edna Shantz, and of former GC prof Arthur Sprunger, now retired.

The Mennonite Historical Library is a research collection of Anabaptist-Mennonite materials and includes museum pieces (at left) such as the clock which was brought to Pennsylvania in 1729 by German immigrant Christian Wenger, the office desk of John F. Funk, and a facsimile reprint of the first edition of the King James Version of the Bible, which was presented to the library by Mr. and Mrs. Leroy L. Hostetler, of Lynchburg, Va. Above is a small portion of the recently acquired J. D. Hartzler collection of hymn and tune books and volumes on hymnology. At right is the John Horsch Memorial Room, which houses a special collection of European materials. The oldest Bible dates to a 1524 publication from Zurich, Switzerland. The first edition of the Ausbund, a hymnbook without music and dating to 1564, is also in the collection.

THE REFERENCE ROOM (at right) on the first floor houses the collection of reference and bibliographic volumes, including dictionaries and encyclopedias, the periodical indexes, and copies of periodicals and journals and recent unbound issues. The current copies are on display. The large globe at left was given by the Class of 1915 in memory of Prof. J. M. Kurtz, who taught at GC 1903-23. A large area east of the reference room is the work room, where books are ordered, received, and prepared for circulation.

DEDICATED TO THE GLORY OF GOD, the Harold and Thelma Schrock Plaza (at left) includes a lighted pool and fountain, and a large open area surrounding them to accommodate informal groups up to 900 persons. Since dedication day, lights and trees have been moved in. At right is the bronze plaque in the library. The quotation from Thomas Carlyle is "All that mankind has done, thought, gained or been: it is lying as in magic preservation in the pages of books."

President Emeritus and Mrs. Ernest E. Miller Mark Fiftieth Wedding Anniversary

Dr. and Mrs. Ernest E. Miller celebrated their 50th wedding anniversary at an open house and tea at their South Eighth Street home in Goshen last June 30.

The former president of Goshen College and his wife were greeted by a number of friends and relatives at the Sunday occasion, held outdoors on a warm, sunny afternoon.

Dr. Miller, president emeritus of Goshen College, served as the school's chief administrator from 1940 to 1954, and remained on its faculty until 1961. He and Mrs. Miller then returned to India where he was principal of Woodstock School and advisor for educational institutions of the Mennonite Church in India.

Dr. Miller and the former Ruth Blosser, shown at left with a bouquet of flowers presented to them by the Alumni Association of Goshen College, were married on June 20, 1918. They have a daughter, Mrs. Weyburn (Thelma) Groff, whose husband is associate professor of Christian education and director of student affairs at Goshen College Biblical Seminary, and son, Dr. Donald G., who is a physician in the Dunlap-Elkhart area. They also have eight grandchildren.

'68 Grads Give $2,500 for Official Entrance

JOHN FRANKENFIELD, second from left, hands President Mininger the $2,500 gift of the Class of '68 at traditional class day ceremonies. Looking on are (left to right): Bob Michael '68, Grant Zehr '69, Frankenfield, Dr. Mininger, Miss Karen Miller '68, Mrs. Linda Dee King Meyers '68, and William Horrisberger '68.

A gift of about $2,500 was presented to Goshen College by the class of 1968 at its annual class day program last May.

John Frankenfield, a biology major from Harleysville, Pa., presented the gift to President Paul Mininger "in appreciation for what Goshen College has done for us in the past four years."

The gift was designated to build an official college entrance at the corner of Ninth Street and College Avenue and for a sign announcing the campus at the corner of Main Street and College Avenue.

Designed by Johnson, Johnson, and Roy of Ann Arbor, Mich., landscape architects for the College, the official entrance is to be built following the completion of the library plaza.

The gift from the class of '68 was the 52nd in the tradition of senior class gifts to its Alma Mater.

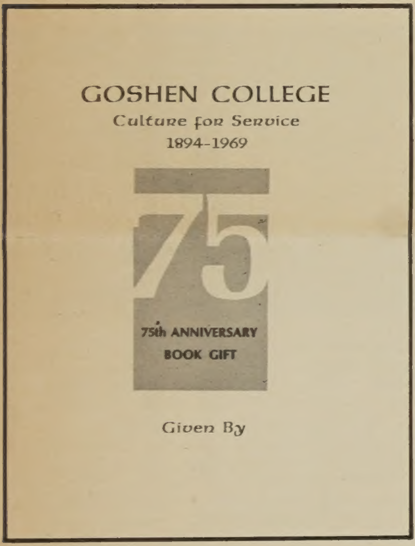
In other class day activities Miss Karen Miller, a social welfare major from Goshen, Ind., planted the ivy, noting that "the important part of the ivy is not its leaves, vine, and roots, but its life and growth."

Mrs. Linda Dee King Meyers, a physical education major from Decatur, Ga., acting president of the Class of '68, passed the emblems of the lamp and the book to Grant Zehr, of Fisher, Ill., acting president of the Class of '69.

Containing the names of all who have been graduated from GC, the book symbolizes the continuity of preparation GC has given its graduates.

Robert Michael, an English major from Goshen, Ind., broke the wreath, symbolizing "the breaking of our college community." He said that the graduating class will be judged "not by the institution from which we depart," but "on the basis of individual commitment."

Alumni Association Launches 75th Anniversary Book Gift Drive To Expand Holdings in New Harold and Wilma Good Library



GOSHEN COLLEGE
Culture for Service
1894-1969

75

75th ANNIVERSARY
BOOK GIFT

Given By

In a special effort to expand holdings in the new Good Library, the Alumni Association will launch on November 1 a project to provide more library resources at GC.

For more than 10 years, Goshen College has had to restrict purchasing of books for the library because there was inadequate space to shelve them.

Many of the books that were purchased were shuttled off to departmental libraries that were located in many of the classroom buildings.

Former students, especially those since the late 1950's, will recall the nursing division, home economics department, and music department libraries in the Arts Building, for example.

The current capacity of the Good Library allows up to 150,000 volumes. Present holdings are only 56 per cent of that, or a total of 84,000 volumes.

In the final phase, when areas now used for non-library purposes are converted to shelves and seating space, the library will accommodate 225,000 volumes.

Book List to Cover All Areas

A book list to be published in early November will be sent to all alumni and will be available to any other persons desiring it.

The list will include books from virtually every department of the college that are required now for enriching the current collection.

For convenience of users of the list, the books will be listed according to main subject groups, such as American literature, English literature, American history, British history, physical education, and nursing. Almost all the teaching departments of the college will be represented in the list.

Information with each book will include author, publisher, and price.

Special Book Plate to Be Used

A special book plate, shown actual size at left, will be placed in each book crediting the donor for his thoughtfulness. The gifts will also be acknowledged for income tax purposes.

Donors may give the books as individual gifts or in memory of a loved one, a friend, or a teacher.

More information on the 75th Anniversary Book Gift program is available by writing to the Alumni Office at the College.

She was married in 1952 and is mother of four children: Jeffrey, 14; Pamela, 13; Viking, 9, and Millicent, 5. They attend Catalina United Methodist Church. Mrs. Anderson does volunteer committee work. Mr. Anderson received the Ph.D. in 1953 from California Institute of Technology and is a professor at the University of Arizona and an aero-space engineer; he is the author of **Fundamentals of Vibration**, published in 1967 by Macmillan Company.

Miss Grace Augsburger, of LaJara, Colo., studied nursing education and administration at the U. of Chicago during the summer of 1949. Since 1963 she has been director of nursing service at Conejos County Hospital, a 32-bed institution owned by the community and operated by the Mennonite Board of Missions and Charities. Before 1963, she worked for four years at the medical center of Calico Rock, Ark., with **Dr. A. Meryl Grasse '44**. Before that she was on the staff of Mennonite Hospital of LaJunta, Colo., for 10 years. She writes, "Our church is rather unique — the Presbyterians and Mennonites are setting up a United Church of LaJara. Each group has a pastor but both share in worship services. The number of Mennonites is small — 16, the number of Presbyterians is also small."

Farmer and Part-Time Construction Worker

Mr. Henry Baerg, of Butterfield, Minn., writes that he has taken additional work in mathematics at the U. of Minnesota. "I was in construction work until five years ago, several of those years as foreman. The last five years I have farmed and have done construction work part-time. I am on the mission committee in the church."

Mrs. William H. (Opal Cripe) Batch, of Goshen, Ind., received the M.A. in Library Science at Western Michigan U. in 1965. She has been a Grade 1 teacher in the Concord Community Schools since graduation from GC. Her husband is an assistant shipping clerk at Chase Bag Co. Crusader for Protestants and Other Americans United for Separation of Church and State

The Rev. W. Phillips Berwick, of Elmhurst, Ill., received the S.T.B. and Ph.D. degrees from Boston U. School of Theology and Graduate School. He is the full-time Midwest regional director of Protestants & Other Americans United for Separation of Church and State, of Chicago. The national office is in Washington. POAU has 50 full-time workers supported by memberships at $5 and tax-deductible contributions. Through his efforts he has saved taxpayers tens of millions each year for five years. This money would have gone to parochial schools, etc. He views the ratio decidendi (the reason or ground for judicial activity) of the existence of America and the Church as determined by the degree of separation between the two spheres of activity. At present he is informing people of what his organization describes as a Catholic problem in Vietnam and calls the war there "Cardinal Spellman's War." Every Midwest state faces sectarian pressure: Indiana, parochial tuition of around $50,000,000 a year; Illinois, five bills to place nuns in public schools; Ohio, tuition passed, with a POAU court test instituted the day the first dollar was spent. A recent publication of POAU tells how Dr. Berwick was hooted and booed, called a Communist and a bigot, on a TV program in New York by persons unsympathetic to the ideal of separation of church and state. Before working for POAU, he pastored Methodist churches in Indiana and Connecticut. His wife is the former Ercie Triandefilledes, a homemaker and active in PTA. They have three children.

The Rev. Eugene Blosser, of Sapporo, Japan, received the Th.B. from GC's Biblical Seminary in 1952 and has taken additional work there in Christian education and in Far Eastern studies at the U. of Michigan. He has been a missionary to Japan under the Mennonite Church since 1953. Currently he is serving the Shiroishi Mennonite Church, and is assisting in pastoral work in other churches in Sapporo. He is mission treasurer and board member and treasurer of Hokkaido International School. His wife, the former **Louella Gingerich '47**, is mother of four and operates a children's hostel for Mennonite children attending Hokkaido International School. Their children are Philip, high school senior; Thomas, Grade 11; Rachel, Grade 9; and Mary Lou, Grade 4.

Will Teach Grade 3 This Fall

Bontrager, of Stillwater, Okla., received the M.A. at Indiana U. in 1965 and this summer is finishing work for the Ed.D. degree at Oklahoma State U., where he is a graduate assistant in the math department. The Bowmans share their home with a nurse who is partially incapacitated. She teaches an adult Sunday-school class and is vice-president of the W.M.S.A., and is active in the Christian nurses group. Her husband is a professional engineer. She writes, "It was our happy privilege to attend Mennonite World Conference in Amsterdam last summer. We were members of a preconference Menno Travel Service tour group for 10 days in Germany, France and Switzerland and 2 days in England. During conference we were guests in the home (cozy apartment) of **Meintje Kuitse '47** thereby returning a visit she made in our home during World Confer-

ence in Kitchener in 1962. After the tour we spent two weeks renewing friendships in England, where I had spent 3 1/2 years under MCC during war. This was a real joy and one of the unmerited pleasures of my life. Our return was by ocean voyage on Empress of England. The day at Expo after arrival at Montreal had less appeal after so many happy experiences abroad."

Miss Ada Brubacher, of Waterloo, Ont., writes that she has taken night classes in accounting, office management, and personnel management at Otero College, of LaJunta, Colo., and courses in sociology and religion at U. of Waterloo. The year before he was engaged in training in pastoral counselling at Brook Lane Psychiatric Center, of Hagerstown, Md. From 1957 to 1965 he was a pastor at Wooster, Ohio, and during the year 1956-57 he taught at Christopher Dock High School, of Lansdale, Pa. For two years, 1954-56, he studied at GC's Biblical Seminary. His wife is the former **Grace Derstine '54**; they have two children.

Mrs. Joseph (Helen Witmer) Burkholder, of Gondar, Ethiopia, writes, "We have lived abroad in Ethiopia all of our married life, which began in 1956, except two years of furlough. Previous to that, 1949 to 1952, I served as a single nurse in Ethiopia." She is a homemaker and a teacher-tutor using the Calvert course in the school for staff children. Her husband Joseph, M.D., received his diploma in public health at the U. of Toronto in 1967 and on July 1 of that year he began a three-year assignment as assistant professor of public health at Public Health College, Gondar, Ethiopia, which is one of the colleges of Haile Sellassie I University, Addis Ababa. They have two sons and two daughters, ages 5-11. She adds, "Public Health College trains health officers who are graduated with the bachelor of science degrees, sanitarians and community nurses who receive diplomas, and laboratory technicians who receive certificates. Upon graduation they are assigned by the Ministry of Public Health as a team, one or more from each group, to health centers throughout the nation. All but one of the eight doctors are foreign, but the majority of the remaining faculty is Ethiopian. The medical staff was reduced from 13 to 8 this year. Any doctors from any of the specialties looking for a challenging experience abroad?"

I was once over halfway toward a master's degree but gave it up for less boring pursuits. The most newsworthy, I suppose, would be my summer job of helping my husband on his student tours to Europe. I find winters just as interesting, fixing up an old Mediterranean Spanish house on a hill overlooking San Francisco Bay, teaching our daughters to cook and sew, and being a secretary for my husband. Beside daily teaching, he has two evening language classes. In spare time, he is a substitute Italian teacher for Berlitz and translates for Ambassador College in Pasadena in preparation for a future **World Tomorrow** in Italian." The years of study fill out the decades: U. of Pennsylvania, U. of Amsterdam, and U. of London. We now live at Heemstede, a pleasant suburb of Haarlem, where our children are in Dutch schools, and from where I commute to Amsterdam. We attend church at the Haarlem congregation and are busy making Dutch friends. We are much interested in the role of the seminary, especially our Mennonite seminary here, in the life of the university. It is a great privilege to be related to student life these days and to become involved in the surges of new life and creativity — now and then seeing the marks of the Spirit — at work in our world today."

James W. and Olive (Clemens) Kuhns, of Hatfield, Pa., write, "It hardly seems as though 19 years have elapsed since we wore the gowns at the Goshen High School on that spring day. The following is a brief outline of events which we have experienced since then. On Aug. 27, 1949, we were married in Olive's home church in Souderton, Pa. Immediately after our marriage, we left for a term of relief service in Ethiopia. We worked in a hospital program and its related Dresser training program. Ethiopian young persons were trained in diagnosis, treatment, and medication prescription in this program. They were then qualified to go into the local villages and operate a clinic as independent practitioners who cared for the sick and injured. We spent two years in this program. During the ensuing years, three girls and one boy have joined our family. **Jean**, our eldest daughter, was graduated this spring from Christopher Dock Mennonite High School, and will attend GC this fall. Genet, 16, our second daughter, will be a junior at CDMS this coming fall. Philip, 13, will be in Grade 8 , and Evelyn, 10, will be in Grade 5 at the Franconia Mennonite Day School in Souderton. After our return to the USA in 1952, James spent six years as a secondary school teacher of biology, chemistry, math, and physics. Of this time, two years were spent on the staff of Christopher Dock Mennonite High School. Then three years were spent as a guidance counselor in a local high school. Since 1962, James has spent the years as a psychologist working primarily with children. He worked as a member of a clinical team composed of a social worker, psychiatrist, and psychologist. The team was responsible to evaluate, formulate dynamics, diagnose, and make recommendations for handling the referred child who may be experiencing emotional maladjustments, and/or deviant behavior due to minimal brain damage, or physical handicaps. The specific areas of emphasis involve how this child can be helped optimally in making the adjustments to social, educational, and developmental situations. The organization, which fields two diagnostic teams, offers consultant services to about 50,000 children in a geographic area of about 15 miles radius. It also operates a therapeutic, educational program for about 50 children who cannot succeed in a typical educational program and who are in need of a specialized program designed to meet their specific learning disabilities and/or emotional maladjustments. James just completed a research project which investigated the parent-child relationships and developmental histories of 20 pairs of brothers, one schizophrenic and the other normal, coming from intact homes. He found the study quite interesting but very demanding, and he is glad it is now finished. His graduate studies, for the masters and the doctorate (the latter he received on June 14, 1968) were at Temple U. This coming fall he will be joining the faculty of a local college as associate professor of psychology. Alumnus in the Thick of a Lawsuit To Protect Teachers' Rights

Mr. Harold I. Bock, of Coos Bay, Ore., writes, "Education: Oregon Program — Team Teaching Workshop, Portland 1963; M.S., U. of Oregon, 1964; NDEA History Institute, Oregon College of Education, 1966. During the summer of 1965, I chaperoned four Honduran and two Oregon students to Honduras for 10 weeks for Student Exchange, Inc. Employment: Since September, 1959, I have taught modern problems, a required 12th year social science course in Oregon schools — 1959-61, Albany Union High School; 1961-67, Bend Senior High School; 1967- Marshfield High, Coos Bay. In 1967 the Bend School District refused to renew my contract. The American Civil Liberties Union is backing a suit against the school district and challenging that section of the Oregon Teaching Tenure Law which discriminates against teachers in districts with less than 4500 ADM. After support from the Association of Classroom Teachers, several American Federation of Teacher locals, and the OEA Representative Council, the Oregon Education Association belatedly contributed $500 toward the case. The case should be of interest to teachers in other states for I suspect that in most states tenure laws are very weak and teachers' rights poorly protected. From 1959 to 1962 I served on the state executive council of the International Relations League, sponsored by the Oregon Education Association and the U. of Oregon. In 1962 I received a five-year appointment to the OEA Commission on Human Rights and Responsibilities. This was the first commission of its kind in the United States and I am happy to say that much of the civil and human rights resolutions which are now a part of the National Education Association had their origin in the OEA commission. I am also a member of the Oregon Council for the Social Sciences. Church and Community: I view much local church activity with a somewhat jaundiced eye. For example, I doubt that my activities on church social concern commissions ever quite outweighed a fellow church member's yeoman service as chairman of the local draft board. Traveling to the 1967 Washington CALCAV Conference may have helped in mobilizing fellow Americans in opposing the Vietnam tragedy. Those church members who supported me possessed little of the kind of influence to protect me from the local bigots. My church and community activities consist mainly in supporting Eugene McCarthy, Southern Christian Leadership Conference, the American Civil Liberties Union, Freedom from Hunger program and such programs as I believe attack directly those evils which permeate our society. Good luck and best wishes to my fellow alumni." Mrs. Bock is a radiological technician; they have four children.

Air Pollution Meteorologist For Pennsylvania

Mr. Merlin W. Zook, of Camp Hill, Pa., received the M.S. in meteorology at Pennsylvania State U. in 1961, which was financed by an NSF assistantship. He has also taken accelerated courses in air pollution meteorology at the Robert A. Taft Sanitary Engineering Center, U.S. Public Health Service, of Cincinnati, Ohio one in November, 1963, and the other in September, 1964. From August, 1961 to August, 1963, he was in VS under M.C.C. as audio-visual aids librarian at its offices at Akron, Pa. Since October, 1963, he has been air pollution meteorologist for the division of air pollution control of the Pennsylvania Department of Health, in Harrisburg. He is one of two meteorologists. He helps forecast conditions in Pennsylvania which will lead to the build-up of pollutants in the atmosphere. He teaches the adult Sunday-school class and is a treasurer at Slate Hill Mennonite Church, where he has taught summer Bible school for three years. His wife is a homemaker and mother of two — Kevin, 2; and Kathleen Joy, born April 22, 1968 — and her hobbies are sewing, painting designs on cloth, and collecting S & H green stamps. Merlin writes that his hobbies are observing weather on his own and studying the results, cloud photography, astronomy, and keeping track of sunspots in the present peak of an 11-year cycle. He adds, "The life of a meteorologist is sometimes exciting. While at Pennsylvania State U. I had just left the radar-weather installation and in less than 10 minutes it had been struck by a bolt of lightning and put out of commission. In another weather incident there, I almost got struck by a falling 30-foot tower. As an air pollution meteorologist I have helped to put up two 150-foot towers in Johnstown, Pa., and a 75-foot tower, all with weather instruments on them. In our work we have to 'guarantee' that another Donora incident will not happen. (Donora is a small town, nestled in a river valley in Southwestern Pennsylvania, that was overcome by smog and gases some years ago. — Ed.) The Weather Bureau issues Air Pollution Alerts now; we apply them to Pennsylvania and, in addition, are developing a method of forecasting for the state. We do calculations of smoke concentrations downwind from a stack; we also set up a network of 25 automatic telemetering stations to transmit weather and air quality data to a computer console in our office. We have 20 openings for technicians and engineers, if any one wants a job and is qualified."

LINES FROM LIECHTY:

Thoughts While Walking Through the Door.

Someone has said only two things are for certain, "Death and taxes." But shouldn't "change" be added as a certainty?

Sooner or later, either at a rapid pace or a slow one, change catches up with us. Inevitably we are affected. Here on the campus of our college we are also caught in the encompassing tentacles of change.

New on the staff in College Relations is Mr. John Frankenfield. He is a very recent alumnus — one of the class of '68 — and he hails from Eastern Pennsylvania, that fine eastern area of Goshen's constituency where a warm relationship has been enjoyed from the earliest years. Harleysville is his home town, to be exact. John is married to the former Jane Gross, from the same area of Pennsylvania. Mrs. Frankenfield was a '68er but now gains the '70ers and is letting the man of the house perform solely in the role of family supporter. John and Jane, both graduates of Christopher Dock, are at home at 1619 South Eighth Street, just north of the main gate to the campus.

J. Frankenfield

Mr. Frankenfield assumed his duties here August 1 and will pour his energy into two most important areas of college administration — namely, alumni relations and admissions.

He is busy now becoming oriented to the roles to be filled. You will be hearing more from 2nd John as the days get shorter and the nights take more oil.

It is not easy to phase out a chapter that has been filled with the building of many new and meaningful relationships. But in moving to a new emphasis tagged "Special Gifts," the relationships of recent years simply take on new meaning.

"Special gifts" — hopefully, this can be seen as another highly important way of undergirding Christian higher education at Goshen College. You can be assured that "John" will continue to serve you in the sameness of tradition as well as in the newness of change.

Thank you for all your help and counsel, encouragement. . .and everything unmentioned that has contributed to the alumni program the four years past.

Thanks also for those things which tested the wisdom of serving in a way that hopefully was helpful to the program of Christian higher education at Goshen College.

Gordon Yoder '51 to Head $133,000 '69 Alumni Fund

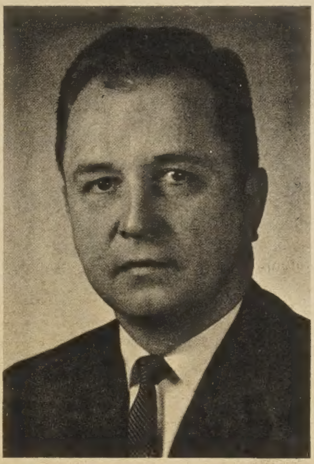
Named to lead the 1969 Alumni Fund — with a goal of $133,000 — is Gordon Yoder '51, an Elkhart, Indiana, banker.

Mr. Yoder, currently manager of general services of the First National Bank of Elkhart County, was appointed to his post by the five-member annual fund committee of the Alumni Association.

Assisting him will be a corps of class agents, who will spearhead the drive among fellow alumni to boost total giving as well as percentage of participation. As this went to press, 33 persons from as many graduating classes had accepted the job to help surpass last year's total of $103,435 and reach the 1969 goal.

The fund committee, made up of Harold E. Hartzler '56 (chairman), Lloyd E. Hartzler '38, Clifford P. Martin '27 (1968 national chairman), Mrs. Roger Earlene Cravener '60) Nofziger, and Larry R. Yoder '59 (1967 national chairman), has decided that $33,000 of the goal will go toward endowment and $100,000 will be for designated or unrestricted use — such as coal in the bin, teaching materials, utility bills, faculty salaries, and aid to needy students.

Class agents will for the most part depend on the mail for telling their fellow alumni about the fund and the requirements of GC. A limited number of personal visits is also planned.



Gordon Yoder '51 is national chairman of the $133,000 '69 Alumni Fund.

The committee knows that the Alumni Association is also sponsoring a special, one-year-only 75th Anniversary effort to provide books for the new Good Library. Alumni are urged to give to both the book drive and the annual fund.

Book Gift Drive Launched To Enrich Library Holdings

The Alumni Association of Goshen College is launching a special 75th Anniversary Year Book Gift project to enrich the holdings in the new Good Library.

The special one-year-only Book Gift program is designed so that each alumnus can make a significant as well as personal contribution to the expansion of library resources at his Alma Mater.

Elsewhere in this issue are short descriptions of more than 3,000 individual books, records, and films most wanted by the faculty for use at GC. Diligently prepared by professors in virtually every department and division, the lists require 14 pages.

Even though Goshen College has received over the last eight years a number of library grants from foundations and individuals, the enclosed list shows the large number of works required at this time to enrich further GC's library holdings. The Good Library provides adequate space for shelving these volumes and many more; its shelves will accommodate up to 150,000 volumes, but present holdings are only 84,000 volumes.

A special book plate will be placed in each book crediting the donor, who may give books as individual gifts or in memory of a loved one, a friend, or a teacher. Alumni may also give as part of a club or group which wants to combine their gifts for the purchase of expensive items. Books from personal libraries are also welcome.

Special Events Mark 75th Anniversary Year, 1968-69

In a number of special events this year, Goshen College celebrates the 75th anniversary of its founding.

The first special event of the year was the dedication of the Good Library in September. Events coming up include a workshop on "Education and Values" during the week of February 10, 1969, 71st annual commencement in April, and 75th anniversary convocation during a weekend in June.

Goshen College opened in August, 1894, in Elkhart and was known then as the Elkhart Institute of Science, Industry, and the Arts. When it moved to the city of Goshen in 1903, it had an enrollment of 12 full-time students.

Today, the college has a full-time enrollment of 1,154 students, a 10 per cent increase over last year's enrollment and the highest in the school's history.

Also marking the beginning of the 75th year of operation was the inauguration of a brand new program of Christian higher education. Known as the Goshen Plan, the program includes a Study-Service Trimester abroad, a trimester calendar, and a balanced work load of equalized courses.

The calendar of events for GC's 75th year includes many special speakers, artists, and cultural attractions to make the year a highlight one for the campus community. Alumni are welcome at all events.

Executive Board and Four Committees Lay Plans for Activity Among Alumni

A 12-member executive board and four standing committees have begun to lay plans for more vital activity among alumni.

The new groups were formed following revision of the Alumni Association constitution at the annual business meeting last June 1.

The board of directors, in its meeting last June, set up the machinery for the new organization and made the necessary arrangements for the executive board to begin conducting the affairs of the association this fall. The board of directors, which may number up to 35 or more persons at any one time, will be the advisory and policy forming body of the committee under the revised constitution.

The executive board, in charge of all business affairs of the association and the managing body of the association, met September 7 to set up the four standing committees. This 12-member board provides for broader geographic representation of alumni and replaces the former five- or six-member executive committee, many members of which were Elkhart County residents.

1. The annual fund committee, which includes the two immediate past national chairmen, is responsible for planning and directing the 1969 appeal to alumni for $133,000 in gifts to the college. An article elsewhere in the Bulletin tells about the fund.

2. The student relations committee is responsible for planning and carrying out activities which promote the interests of students, such as opportunity for students to talk with alumni who are established in their professions and vocations, and possibly a banquet for seniors hosted by the association. Its first project was arranging with a number of Goshen and Elkhart alumni to host students in their homes after the Homecoming L-M on October 26.

The 75th Anniversary Book Gift Program is designed so that —

1. You can make a significant — and personal contribution to the enrichment of the Good Library.	**2.** You can select an item — indeed as many as you can — for contribution.	**3.** You will receive recognition for each item that you give by a special bookplate crediting you for your gift.	**4.** You may give a book as an individual gift, or in memory of a loved one, a friend, or a teacher.
5. You may give as part of a club or group which wants to combine gifts of its members for the purchase of expensive items.	**6.** You may choose among the requirements of many departments at Goshen College and in a wide price range.	**7.** You may contribute books from your personal library, if you wish. Please write before sending your books to avoid duplicate contributions.	**8.** In short, you are free to indicate the items you want to give as well as how you would like your gifts to be identified on the bookplate.

HOW IT WORKS — SIMPLE AS 1, 2, 3

1. Fill out the easy form below and send it with your check.
2. Your gift will be acknowledged promptly.
3. You will receive a special note after your selections are purchased by the library and processed ready for circulation.

Since then she has worked for 41 years as a cashier-bookkeeper at Kline's Department Store in Goshen, retiring in 1966. She has been active in her church and has served as a teacher or department head in the junior department of the West Goshen Church of the Brethren for 20 years.

Mrs. Walter (Alma Eigsti) Yordy, of Chicago, Ill., writes, that she is a homemaker and that her husband is retired. She writes, "Since I'm past three score and ten years of age, I've retired from all my outside activities. Teaching has been my main thrust in life during the past 50 years. From 1919 to 1932 I taught a total of ten years in the public grade schools of Iowa and Illinois; 1937-57, taught summer Bible school at Union Avenue Mennonite Church in Chicago; 1932-1950, taught adult class in summer Bible school in an emerging church near Peoria, Ill.; 1938-68, taught in the Sunday schools of four churches—all grades and adult—Union Avenue, of Chicago, Spanish Mennonite (now Lawndale), Bethel, and Englewood. In that 21-year span I took a group of children to Iowa for 'fresh air' vacation. From 1930 to 1954 I served in the women's missionary organization of the Mennonite Church in Illinois on the general committee, and from 1941 to 1955 I was active in the local grade school P.T.A. and served on its executive committee for four years. We have four children who attended GC. One, Evelyn Yordy, died in 1962 a year before graduation from the nursing division."

Goshen College In Costa Rica

By Jill Miller

No flat Indiana terrain, but green beautiful mountains;
No colored leaves, early snow, but greenery and flowers everywhere — brilliant reds, purples;
No Kratz Hall and a roommate, but a whole family of talkative, affectionate, attractive Costa Ricans in a little rowhouse;
No cafeteria food, but rice, rice, rice, tortillas, new fruits with strange names like jocotes, vispero, cas, papaya, and equally strange tastes.
No U. S. presidential election, but Costa Rican politics, U. S. meat imports and Alliance for Progress problems;
No L-M's, but "La Visita" at the National Theater;
No constant drizzling in October, but sunny mornings and pouring afternoons;
No short walk to the Ad building, but six bus trips a day;
No ordinary professor's lectures, but talks by deputies in the legislature, actors in the theater, national authorities;
Yes — cokes, Sears, supermarkets, cartoons on TV, Colgate toothpaste, "Gone with the Wind";
But no security of a small college, only the insecurity of not understanding everything people say, being awakened by an earthquake tremor, having diarrhea, being the only blonde on the bus;
This is Goshen College in Costa Rica.

ACT Provides Prepayment of Education With 5 Per Cent Interest

GC's prepayment plan, Assured College Tuition (ACT), allows you to begin saving for your son's or daughter's college education now, and to accumulate 5 per cent interest, compounded semiannually.

You can begin your account with a minimum opening prepayment of $10; payments after the first should be made as regularly as possible in amounts of $10 or more.

While saving for College education through ACT, you help provide resources for GC to build, for example, income-producing residence halls that are financed about one-half by borrowing and one-half from contributed capital funds.

For further information write to: Mr. Ralph J. Gunden, Business Manager, Goshen College, Goshen, Indiana 46526.
